Mr. Dan Dalton
P.O. Box 1795
Newport, WA 99156

Dear Dan,

Let me offer you this letter of recommendation. In San Juan, Puerto Rico, your presence and leadership was extremely valuable in completing the repairs to the two NPR, Navieras container cranes. Your abilities as a job leader, or superintendent to not only direct the personnel for fabrication and installation of the leg stiffening braces enabled us to finish the repairs ahead of schedule.

I've found your work ethics and dedication to the job a positive influence on the labor. You and your personnel worked tirelessly seven days a week, often twelve to fourteen hours a day for almost three weeks.

Your flame strengthening abilities took a badly damaged equalizer beam that needed to be replaced and restored to its original configuration. It saved us time and money.

Your system for success is simple, you work with your personnel and take an active role in supervising the work to accomplish a well completed project in a professional manner. My client was well satisfied and so was I.

It is without hesitation that I would recommend your services to anyone in the industry. Once again, thank you for the professionalism you put into my project.

Sincerely,

Gerald F. Charlton
President
